

Sulière et sacrier

Exercice à rédiger en anglais, en un minimum de 30 mots.

In Paul's kitchen a sugar bowl and a salt bowl are placed side by side. These two containers have the same size, the same shape and their contents reach the same level.

Paul, who is a bit of joker, takes a full spoon of sugar from the sugar bowl and puts it into the salt bowl. Then he mixes the whole. On hearing his mother's coming, quickly he puts a spoon of this mixture in the sugar bowl, in order to have the same level in each of the containers.

**Is there now more salt in the sugar bowl than sugar in the salt bowl ?
Explain your answer.**
